

Coast to Coast®

To Coast to Coast Resort Managers:

This letter is to introduce one of the many full time RVer's who conduct safety seminars at Coast to Coast Resorts all across the country. We have found these seminars to be both informative and helpful to our members.

These seminars are designed to introduce safety products that can save lives and reduce accidents. We encourage you to allow this member to conduct seminars at your resort. These members are insured with a one million dollar liability policy so there is no liability to you or your resort. We have found that they conduct themselves in a professional manner and we have not had any problems in the past. You will be compensated for each sale made in your resort.

Sincerely yours,

Terry Thompson
Advertising Director
