Brakeguard  
6565 N. Perry  
Spokane, Wa 99217

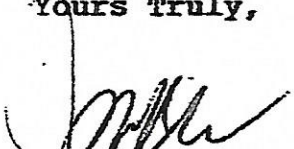

Dear Mr. Jones:

Please find enclosed pictures of one of the three 30' FMC Corporation manufactured vehicles owned by N.A.S.A., equipped with brakeguard, installed in 1995. Subject vehicle is in service at the Nasa Ames Facility in Mountain View, Ca., as a training vehicle for fire, emergency response teams, and law enforcement in disaster assistance and rescue training. Brake life has improved as is stopping distance.

Our shop has installed several hundred sets motorhomes of all types and sizes.

Great Product!

Yours Truly,

  
James N. Black Sr.  
President

The Brake Regulator
