Dear Larry

Thank God for Brake-Guard. On July 7th 2001 at the Iowa State WIT rally in the Amana Colonies, Iowa I had a Brake-Guard installed on our 2001 35 foot *Winnebago Adventurer*. I truly believe that the Lord had a hand in my purchasing this system. For years now I have seen Brake-Guard at our various rallies and always pooh-pooed the fact that it would work. This time however, I felt compelled to take a closer look and after reading all of the handouts decided to have it installed.

On Wednesday October 3rd while Tailending the Great River Road Caravan, we were traveling south on IA-52 from Dubuque to Danville towing our 1999 Saturn station wagon. This highway is a narrow, very curvy two-lane highway with absolutely no shoulders. All of a sudden some fool decided to pass a northbound 18-wheeler across the double yellow line. There was no place to go. We were traveling 60 MPH and jammed the brakes in a panic stop. The car just cleared us by less than 3 feet and was equally close to the truck. It happened so fast that the truck driver couldn't blow his horn until it was over. We laid rubber for a good long way but the Brake-Guard enabled us to slow enough to avoid a head on collision. It was a very straight and even slowing. No pulling or control problems. Without the Brake-Guard we would never have avoided the collision. Judy, my wife, said that without the Brake-Guard our children would have received their inheritance early.

We have had a Motorhome since 1975 and have driven over 250,000 miles. During that time one encounters all sorts of hazards and driving fools. I am certain that without the Brake-Guard System, we would have had our first and most likely our last head-on collision.

When we got into camp that evening, I related the story to the whole caravan after a potluck dinner. Beginning with the way I had pooh-pooed the system for years right up to the time of the incident. Several of the men came over to the coach to see the system and asked for your address. I made copies of your card on my computer and gave them to all who asked.

Sincerely,

Dick Morrison
