Dear Lawrence:

Just a quick note to let you know how pleased we are with our Brake-Guards.

Our complete fleet is now equipped with these systems. Keeping our delivery crews safe was our primary reason for installing the Brake-Guards on our heavy delivery vehicles. Our own testing showed at least a 30% reduction in stopping distance during emergency stops was achieved. Also the extended brake life should more than pay for the cost of the systems! We would like to thank you for the professional way the installs were done. No down time for our fleet. We now have over 60 trucks equipped in Phoenix, Arizona; Atlanta, Georgia; San Diego, California & Las Vegas, Nevada.

Again, thanks for a great product that does exactly as advertised.

Sincerely,
